

The Adventures of Dick & Jane...

Jane always books the family holiday.

She didn't have the funds to book and pay in advance this year so she decided to wait until the last minute to try and get a bargain for a self catering family break. A week before travel she searched online, but all the great houses were gone. She booked a house at a 'bargain' price, but then discovered it was not in a great location, it was not near a beach or facilities, it was a very long drive away and cost her a fortune in fuel and tolls not to mention the sweets for the kids on potty breaks! Jane soon discovered that booking a last minute bargain for the big family holiday may not have been the best idea she ever had...!

This year was Dick's turn to book the holiday. Like Jane, he didn't have the funds either to book and pay in advance so he decided to save for his holiday with West Coast Holidays and pay it off weekly with instalments! He booked well in advance and had plenty of choices. He got a great house in small holiday town with shops, pubs, restaurants, beaches and loads of family attractions on its doorstep. All he needed to book was €50 and then he saved securely with West Coast Holidays up until 6 weeks before the big holiday when it was all paid up! No last minute pressure, no 'bargain basement' houses in bad locations, no big long expensive drives to get there - just a very happy and memorable family holiday!
